Awful game which doesn't load correctly, has no purpose and is unplayable. I probably purchased this for the 5000 achievements which unlocked but poorly. The first 50 unlocked each second after launching the game. The rest decided to all unlock simultaneously when closing the game which caused Steam to hang and eventually stop responding. Required a forceful quit of Steam through Task Manager.

TL:DR - Achievements are bugged, unstable and caused my Steam to stop responding. Game is unplayable.. The best game ever!

Dont buy because of tradingcards

YOU need this game!!!!. I wouldn't play this crap on Kongregate why is it on Steam?. Horrible game design. There is nothing cute or dynamic about the game. Uninstalling this piece of garbage in my hard drive.. Another card generator app. this is basically a flashgame; horrible, confusing why they ask money for it, bad controls. no replay value at all, dont buy it.

90% of my "playtime" is afking for steamcard time :)

i bought this game for 10 cents, its not even worth those 10 cents.. Dynamic game and cute design.

+cards

+4765 achievements

9/10. This game is probably one of the worst games i have seen on the steam market. I only purchased it because i got a 90% discount due to my CSGO trading card badge. I dont get the point of the game, and why people would waste time even bothering to install it.

Id rate this a 0/10. Play for cards. That's all.. Horrible game design. There is nothing cute or dynamic about the game. Uninstalling this piece of garbage in my hard drive.

If you're into WOW type of games, you might dig it, but of course, buy it now while it's cheap. 0/100

-50 Utter garbage

-50 A game that people buy for the trading cards and nothing more. If you're into WOW type of games, you might dig it, but of course, buy it now while it's cheap. This game has boring, bland, repetitive gameplay that very few could ever be interested in for a long period. I can sit for hours and stare at a wall or ceiling and not be bored, yet this game actually gave me a headache because it was so boring to me. It is a little buggy as well, with poorly designed hit boxes which makes the repetition even more obvious and tiring.

I've actually had more fun playing games that crash from every 2 - 10 seconds. You get what you paid for, 4.7K achievements at minimum price. If you're an achievement hunter looking to increase the number of achievements on your profile showcase, then I highly recommend buying this. Else don't waste your money. This is not a game, it's just a way of distributing achievements. Achievements and Trading Cards.

Easy 100% / 2h.

+ Some extra time for trading cards. Gameplay is really bad. Only buy it on sale if you want the achievements. Ez unlock 4766 Achievements 100%. You get what you paid for, 4.7K achievements at minimum price. If you're an achievement hunter looking to increase the number of achievements on your profile showcase, then I highly recommend buying this. Else don't waste your money. This is not a game, it's just a way of distributing achievements.
